

Form (ENG):	AGR/19 – Special Zootechnics		Year: 2016
Representative:	Maurizio Ramanzin	Full professor	maurizio.ramanzin@unipd.it
	Luigi Gallo	Full professor	luigi.gallo@unipd.it
Components:	Massimo De Marchi	Associate professor	massimo.demarchi@unipd.it
	Enrico Sturaro	Associate professor	enrico.sturaro@unipd.it

N. Research: main topics and strategic initiatives

Notes

01 Movement ecology of large herbivores

02 Management and feeding strategies aimed to improve the efficiency and the quality of pig production

03 Implementation of innovative methodologies and technologies for studying quality traits of livestock products

04 Sustainability and multifunctionality of livestock systems in mountainous areas

Laboratory: pigs herd of DAFNAE; chemical lab of DAFNAE (LaChi); milk and infrared labs;

Species: Alpine ibex *Capra ibex*, cattle, buffalo, sheep

Technologies/Metodologies: GPS tracking, GIS, chemometric, infrared, LCA

Main ERC fields and subfields: LS8, LS8_5; LS9_3

Notes:
